

Clive and Carol Richardson Photographic Products

Privacy and Security Statement of Intent (Policy):

- Clive and Carol Richardson, Photographic Products (<http://carichardson.co.uk>) have established that our ISP: Hosting UK Ltd and Livedrive.com, our cloud storage provider, who are both based in the UK, are aware of and comply with the General Data Protection Regulations (GDPR).
- We are aware of the threat from malware and hacking, etc. and as a consequence maintain licensed and updated protection from a reputable organisation on both our computers and mobile phones.
- As far as we are aware, no personal data is collected as a result of viewing this website: <http://carichardson.co.uk>, which is hosted by Hosting UK Ltd.
- As far as we can establish, Flickr (SmugMug) only monitors the number of hits on each item stored on their servers for statistical purposes. It has not been possible to determine that both Flickr (SmugMug) and Yahoo (Verizon) were aware of GDPR and were working towards compliance; however Verizon who now own Yahoo are certified to ISO 27001 which suggests an awareness of the necessity for Information Security Management. Due to this uncertainty we did set up a secure email server with United Hosting which is now clive.richardson@carichardson.co.uk redundant.
- Clive and Carol Richardson, Photographic Products (<http://caricharson.co.uk>) have never attempted (nor intend to in the future) to deliberately establish a visitor's identity; however we do occasionally view the Flickr statistics to identify trends in viewer's interest.
- Sales are usually conducted by using the services of eBay and / or PayPal, records which have to be maintained for HMRC purposes will only use an eBay ID to identify a sale. Delivery details / labels will be processed using eBay and / PayPal systems with no addresses being stored on our systems.
- Records of purchases and sales will be kept securely, using encrypted storage locally and on LiveDrive.com, for accountancy and taxation purposes only.
- Any requests to view or delete contact or other details will be carried out as soon as is reasonably practicable, within the requirements of legislation in force at the time of the application.

Clive and Carol Richardson, Photographic Products

This statement will be reviewed and possibly revised when significant changes are found to be needed.

Document created: 18th March 2018.

Document revised: 02nd May 2019, to identify changes due to Flickr being taken over by SmugMug and Yahoo by Verizon.
